

Upcoming Project

“GLX College Ave Station” *Tufts University*

- The GLX project is expanding Green Line service to Medford, including Tufts University. The project will improve mobility, resulting in fewer automobiles on the road and sustainable, energy-oriented development
- Tufts is constructing a new building above the station, to possibly include a pedestrian bridge that would link it directly with the campus
- Tufts is contributing land for the MBTA to construct the new College Ave Station
- Tufts and the MBTA have entered into a long term Maintenance and Security Agreement for the new station
